

## Emanuel Synagogue Outdoor Space - Wish List – Final - 12/12/2022

Committee Members: Tom Mastronarde, Howard Smith, Tamar Margolis, Gail Weinstein, Hilda Slivka, Josh Cohen, Barbara Fink, Rabbi David Small, Hazzan Daniella Risman, Kobi Benita, Reesa Olins

Next step: Get price quotes from 2-3 Landscape Architects to develop some conceptual drawings and price quotes. Report back to Board of Trustees.

- **Playground** for children up to 12 years old with:
  - Inclusive play features
  - Shaded gathering space with benches for caregivers (tent or removable sunshade sail)
  - Fence to enclose playground with locked gate
  
- **New Fence** (minimum 6' tall) enclosing entire courtyard space perimeter from corner of building near Religious School to corner of building near the Cantor's Office
  - Locked gates with cameras and remote unlock entry: single gate at religious school entrance, double gate for walkway from parking lot to rear entrance canopy.
  - Paved walking circuit around perimeter with greenbelt to soften area between parking lot and fence
  
- **Flex Space for** informal gathering for small groups (school classes, small meetings) or for larger social events (movies, lectures, religious services):
  - Increase size of existing hard surface seating area to accommodate 200 folding chairs
  - Seating area to be accessed by hard surface walkways to accommodate small-wheeled walkers or wheelchairs
  - Shading
  - Portable stage and/or risers (to allow repositioning on any one of four sides of the hard surface area)
  - Portable benches
  - WIFI access
  - This area shall strike a balance between greenspace and hard surface
  
- **Main Entrance from parking lot** and entrance to school
  - Enhance design of both entrance facades to be in harmony
  - Double set of doors (like religious school entrance) to reduce cold air getting into building
  - Increase width of main entrance walk
  - Add canopy the length of the walkway to edge of parking lot (optional)
  - Establish safe handicapped waiting space at edge of parking lot

### *Notes:*

- *It is understood that Infrastructure for outdoor electric outlet pedestals, lighting, and sound systems will be required, as dictated by the final design.*
- *Initial stage of the project will need to address drainage improvements (filling in low spots, enhance sheet flow to parking lot, etc).*
